

Roberta Haffner, USBC Sport Bowling Director & USBC Silver Certified Coach

Below is a review of *WorldMike's Ultimate Bowling School* I attended in South Florida in 2010. It was a 3-day clinic that was not just impressive, it one of the best clinics I've ever attended.

WORLDMIKE'S ULTIMATE BOWLING SCHOOL - 2010

Was the clinic run by a professional coach?	Yes, this clinic was run by Mike Nyitray, a world-class gold coach and one of the tops in the business.
Was it a good value?	3 days for \$550.00, including a ball and drilling. Since the ball and drilling is worth over \$200, the clinic fee is really only \$350.00. Yes, it's definitely worth it!
Was it necessary to have professional touring PBA bowlers there?	Although it's impressive to get coached by the pros you see on TV, I feel that a good coaching staff is probably what is most important. This clinic was run by USBC Certified Gold Coach, Mike Nyitray, a former PBA member and a former Team USA member.
What was the teaching format?	The last 6 lanes of the center were blocked off so we had our own "area". The video and graphic presentations were given right on the lanes. This way when an idea was presented graphically, Mike was able to show the application right away on the lane. I've heard from many bowlers in the past who said they get bored when attending the classroom portion of bowling clinics, but that was <u>not</u> the case here. Mike's presentations had easy-to-understand graphics with ideas and concepts presented in a format I have never seen. Without question, these were the best graphic presentations I've ever seen, and they were backed up by actual on lane application.
I am attending this clinic because of a problem with my knee and lower back resulting from a car accidental last year. This has affected my average and self-confidence and I have considered giving up the sport.	NO PAIN! Yes, Mike taught me a style where there is no pain. I now stand straighter with less knee bend and still can score. Why didn't I think of that? Obviously there was more to it than just that. Mike showed me how my body position was creating pressure on weakened areas on my slide leg. With that, Mike also explained how to improve my body alignment and posture. I can bowl with no pain now and I am very, very happy. Also, I think with some practice, I can get very close to my previous scoring ability.
What did others expect from clinic?	One gentleman was a high-end bowler averaging 238 in league, but when it came to the more difficult "sport" and "open" patterns he was having difficulty scoring. Within the first day Mike fixed something in his style that automatically made him extend through the ball and get more on it. With an improved ball reaction he had other options to play the tournament patterns. His carry also improved significantly. Overall, everyone who attended was very happy.
Where does this clinic rate when compared to other clinics I've attended?	I've attended many clinics over the years and have even given clinics. These include my days in Anchorage, AK when I helped coach a young Sean Rash as well as recent clinics around the globe. So I've been on both the giving and receiving end of clinics and I have to say, this might be the best bowling clinic I have ever attended. There was no "cookie cutter" approach. Each bowler had a different style and Mike respected that.
Overall Comments	If you want to bowl better, invest in a bowling lesson before you buy your next ball. After working with a coach you may find you don't need a new ball. Your new-found skill and confidence may have that old ball scoring in a way you never imagined.
